

CLASSROOM MANAGEMENT - UDL LESSON PLAN

SUBJECT: Idioma Extranjero Inglés

GRADE: 6th Grade

TEACHER: Mr. Kediye de la Cruz

UNIT: 1	LESSON: 1
Lesson Objective/S:	To practice possessive pronouns in a group speaking activity
Assessment/S:	<i>Formative</i>
Materials / Resources:	Canvas/PPT, Bags, Images, whiteboard markers, exit tickets.
Preplanning Activities:	Regarding the students' level, 6th Grade A has an A1 to A1+ level of English, so they are able to understand basic vocabulary and simple instructions. The teacher uses English most of the time during the class; however, Spanish is also used when explanations are necessary to ensure all students understand the contents. Currently, they are working on the first unit, and the contents covered are related to possessive adjectives. Although the group can sometimes be disruptive, they are very participative and usually show enthusiasm during activities. They especially enjoy games and drawing activities, which makes interactive and visual methodologies appropriate for them. Therefore, the communicative approach is suitable, since students like to express their ideas and participate actively during the lessons
Possible Barriers to Learning:	Confusion, lack of engagement, students not staying on-task, students not knowing the vocabulary or what to do, reluctance to follow the instructions, unwillingness to work with their peers.

The teacher will explain the instructions by using visual aids from the PPT: "Listen carefully. Each pair will receive one bag. You must put four objects inside: One object is yours, one object is of your seatmate, One object is his or her (borrowed from a neighbor) and one object is ours (from the teacher). We will play four rounds. Closure	After the activity, the teachers will ask wrap-up questions to consolidate what the students have been speaking. To end the session, the teachers will hand out an “exit ticket” that will consist of three short sentences in which they have to circle the correct option. And they will explain the instructions.
